

CITY OF WASHINGTON,

THURSDAY, DEC. 10, 1801.

THIS DAY IS PUBLISHED,

N<sup>o</sup> VI, of the  
NATIONAL MAGAZINE;

OR,

CABINET OF THE UNITED STATES.

NEWS OF THE WEEK.

DOMESTIC.

MAHLON DICKENSON is appointed Solicitor of the Corporation of Philadelphia, in the room of Joseph Hopkinson.

Citizen A. L. PICHON has notified formally, to the Executive of Maryland, his appointment of a Consul, to reside at Baltimore.

Between the hours of 4 and 5 o'clock, on the morning of the first instant, the inhabitants of Frederic, (Maryland) were alarmed by the cry of fire, which proceeded from the house occupied by JOHN HANE, which, with the adjoining property, belonging to F. KINKERLEY, fell a prey to that devouring element. We are happy to hear that a subscription has commenced for the relief of the sufferers.

Savannah, Nov. 20. Yesterday was committed to the jail in this county, four men, for passing counterfeit notes, and having a number in their possession of post notes of Baltimore bank; notes of 20 dollars of the bank of North-America; notes of 5 dollars of the United States, and notes of 20 dollars of the branch bank of Charleston.

[Petersburg Intelligence.]

NINIAN PINCKNEY is appointed Secretary to the Governor and Council of

Maryland. Note. The Governor and Council are decidedly in favor of the principles of Representative Democracy, to which Mr. Pinckney has ever been hostile.

The Legislature of the State of Virginia met at Richmond, on Monday last.

It is believed that no instance has occurred, under the new constitution, previous to that of Monday, of a Congress being formed the first day. In the Senate, 17 members were present, and in the House of Representatives, 86.

The promptness with which business is commenced is highly honorable to our Representatives, and is the best evidence that can now be given of its spirited and speedy completion.

The new Representative chamber is admirably adapted for the deliberations of a popular assembly. Its great extent, being the largest room in America, renders it very commodious to the members, who can have ingress to, or egress from any part of the house, without the least disturbance to others. The front of the Speaker's chair

is sufficiently large for the present population of the city. The voice is heard distinctly throughout the whole area. This desirable result probably proceeds from the looseness of the ceiling, and more than

counterbalances the unpleasant effect upon the eye, from a want of architectural proportion. It must, however be noticed, that the windows, though numerous, are small, and do not admit sufficient light. This inconvenience can easily be surmounted by a sky-light.

[National Intelligencer.

We this day present our readers with the President's Message to both houses of Congress; a communication unique in its nature, for although equal ability may have been displayed by others, yet we assert, that the history of Executives exhibits none of equal benevolence of heart: the objects which it calls the attention of our representatives to, are chosen with great judgment, and we flatter ourselves that they also will prove themselves desirous of leaving to labor the greatest possible portion of its earnings, and preventing the harpies of government from devouring the profits of "that industry it was instituted to guard."

We challenge the admirers of monarchy to shew the instance in which a king was desirous of lessening executive patronage; spreading information thro' the medium of newspapers, or confiding to the whole body of the people the defence of their country, and the protection of their rights.

There is in the present House of Representatives for the United States, 69 Representative Democrats, and 37 Federalists.

A new bank, to be instituted in this city, is said to be in contemplation. In addition to the ordinary objects of such establishments, it is intimated, that by the one projected, a moiety of the funds is to be appropriated to the improvement of the roads in our state---a consideration of essential importance to our internal commerce, and rendered doubly desirable from the increasing population of the remote extremities of the state.

[Rel's Phil. Gaz.

If the establishment of such a Bank be in contemplation, would it not be more

beneficial to the state, and equally profitable to those who may become stockholders to appropriate the moiety of the funds to the completion of the Canal, instead of the improvement of the roads?

[Poulson's Daily Adv.

#### AN INDIAN PRISONER

Lately returned from captivity, and now in the State of Kentucky.

NANCY MASON, who says she is the daughter of George Mason, and Mary, his wife, formerly Mary Butler, and was born in the state of Maryland, on the east branch of Potomac, five miles from George-town; that her father, mother, and two sisters were killed on the Ohio river, about twelve years ago, by the Shawansee Indians; that her brother James and herself were made prisoners; that her father had 16 negroes with him, 9 of whom were killed, the others she can give no account of. She says her father had a brother named Isaac, who was owner of Iron-works, in the neighborhood of Beeson-town, Pennsylvania; and that her mother had three brothers, whose names were Samuel, James and Isaac Butler.

The Printers at the City of Washington, and at Wilmington, Delaware, are particularly requested, from motives of humanity, to insert this notice at least three weeks in their respective gazettes, for the information of the friends of this unfortunate woman, who is in need of their assistance. If application is made by any of the friends of this unhappy girl, to Judge McClung, of the town of Washington, Kentucky, or to the subscriber, near Frankfort, they can obtain directions how to find her.

HARRY INNES.

Frankfort, O. 30, 1801.

\* \* \* The price of this Magazine is FIVE DOLLARS PER ANNUM, payable half in advance.

Enter a fine bull, his eyes blindfolded, horns muffled, and loaded with chains; is dragged on towards the altar, by the author of the March to Paris, who approaches respectfully, and utters, "Accept, O! chief, the amende honorable, a necessary sacrifice to peace." In the rear, attendants carrying the union flag lowered, British naval and military trophies tied together, and labeled, "For the Gallic Temple of Mars." In a corner, a Premier, aside, "Let this expiate, I had rather keep out of fight."

In the back ground Britannia and Neptune, in a mournful posture.

*Pro Patria, Pro Rege.*

[London Porcupine.

The Prince of Wales is again a visitor of Mrs. Fitzherbert's.—Has his acquaintance with Lady Jersey ceased? And what is become of her ladyship's infant, which was born about twelve months after his Royal Highness's nuptials, and which is emphatically known in London by the name of "THE CHILD?" The morality of Princes has long been properly appreciated, and those of the house of Guelph certainly do not rise above the common level:

It is reported that Britain is to assist BUONAPARTE with 70 vessels, to effect the conquest of the Negro Government of St. Domingo. The example of TOUIS-SAINT's republic is much to be dreaded by the British.

Citizen LAURESTON, General of Eri-gade in the French service, and one of Buonaparte's aids, the bearer of the copy of the Preliminaries of Peace, signed by the First Consul, was received by the people of London with symptoms of intoxicated joy: his horses were taken out of the carriage, in which he was dragged by long lines of men—whilst Peace and long live Buonaparte, rent the skies—at night illuminations were general, and the military despot of France was the god of British idolatry. Upon this occasion the London mob proved themselves the fit tools of despotism, and the equally willing slaves of Buonaparte or George—with them it is God save the King, today, and long live Buonaparte, to-morrow. In the ardor of their zeal they broke the windows of the infamous CON-BERT, destroyed the Crown, and bemoired the Bible, with which he had decorated his printing-office.

\* \* \* The price of this Magazine is FIVE DOLLARS PER ANNUM, payable half in advance.

The NATIONAL MAGAZINE will be published every Thursday evening during the session of Congress, and be delivered on Friday, within the District.

## LITERARY NOTICES.

JUST PUBLISHED,  
And for sale at the Aurora Office,  
Square 640, Pennsylvania Avenue,  
Washington City, and at the Aurora

\* \* \* The Editor has in his possession a series of Essays, by a friend of great scientific attainment; the first number of which will be published in this Magazine immediately after the meeting of Congress.

### PROPOSALS

Will very shortly be presented to the public, by the WASHINGTON PRINTING AND BOOK-SELLING COMPANY, for reprinting an Edition of  
**GORDON'S**  
**HISTORY OF THE AMERICAN REVOLUTION;**  
of which there has been but one American impression.

Lately published, and for sale at this Office, (price 1s. 6d.) an edition of **HOYLE, ABRIDGED.**

### VALUABLE MEDICINES.

Just Received, by appointment, and for sale by the Subscribers direct from the Patentee, Doctor **LEE'S** Patent  
**NEW-LONDON**

### BILIOUS PILLS,

Prepared only by Samuel H. P. Lee, M. D. New-London Connecticut.

**THESE** Pills are celebrated throughout the United States and West-Indies, in the cure and prevention of Intermittent, Remittent, Bilious, Inflammatory and Yellow Fevers; Jaundice; Bilious Cholic, Indigestion, Dropsy, Gout, Rheumatism; Pleurisy; Chlorosis; Worms: Dysentery, Bilious Vomiting; Convulsion and Epileptic Fits: Asthma; Coughs and Colds, accompanied with Costiveness; Foul stomach; Scurvey; Sore Throat; Hypochondria and Hysterical Affections, &c. &c. &c.

They are also highly esteemed for their virtues when taken in the Spring season, Summer and autumn, and by removing an overcharge of bilious redundancies in the stomach and bowels, and thereby prevent most of those diseases concurrent with an epidemical season: Their operation is an easy and effectual purgative, and may be taken without risk of getting cold or any inconvenience, therefore extremely proper for travellers

by sea or land—they are good to relieve the system after a hearty meal or a night's debauch; their use in epidemics of any kind are too well known to need any comment—their success in dysenteries are peculiarly beneficial, and have been found to be the best evacuent to remove the causes of fluxes of any. Certificates of their efficacy may be seen at the place of sale.—Price 50 cents per box, and 5 dollars per dozen, to sell again.

**RICHARD DINMORE,**

Agent for the Patentee in Washington City. **JOHN OTT, Druggist,**  
George-Town.

ALSO,

### Doctor LEE'S celebrated AROMATIC PASTE,

FOR THE TEETH AND GUMS.

"It is that white and yellowish tartarised calx, which adheres to the teeth next the gums, causing scurvy, loose flabby bleeding gums, and the complete destruction of the enamel of the teeth that so frequently disfigures the beauty, renders the teeth rotten and loose in their sockets, and afflicts mankind with pain the most excruciating."

Vide London Medical Essays.

**THIS PASTE** will on using, be sensibly perceived to brace up and strengthen the fibres, and with a little continuance will perfectly cure the scurvy in the gums, changing them from that livid, disagreeable colour to a fine pale red, causing them to grow close to the teeth, so that those teeth which were before loose and ready to drop out, will become entirely fast and steady, and from being black and foul will make them appear white and beautiful. It likewise preserves the teeth from growing rotten, keeps such as are decayed a long time from growing worse, and takes off all disagreeable smells from the breath, which generally arises from scorbutic gum and bad teeth. It has a beautiful aromatic taste and flavor.—Price 50 Cents per box, and 5 dollars per dozen to sell again.
